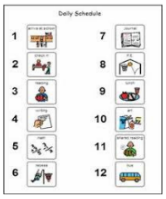
TEACHING MY CHILD WITH ASD AT HOME... WHERE DO I START?

REVIEW YOUR CHILD'S IEP GOALS

Review your child's IEP goals to familiarize yourself with skills you can work on with your child.

REVIEW COMMON CORE STATE STANDARDS

Go to www.cpalms.org to find the Common Core State Standards. Choose appropriate goals to work on with your child. Consult with your CARD clinician if you need advice.



CREATE A DAILY VISUAL SCHEDULE

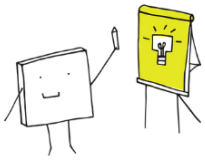
This will be important to keep both you and your child on-task. Predictability is important at this time.

COLLECT TEACHING MATERIALS FOR EACH CONTENT AREA OR AREA OF TARGET SKILLS, USING THE RESOURCES BELOW AND ANY OTHERS YOU HAVE.

BE REALISTIC AND KIND TO YOURSELF!

This is a time in our lives when we need to be kind to ourselves. You are not expected to become a teacher overnight!

EACH DAY, REFINE YOUR APPROACH AND STRATEGIES.



As all teachers do, review how you and your child did each day. Make adjustments as needed.

WE ARE HERE TO HELP!
CONTACT YOUR CARD CLINICIAN IF YOU NEED HELP.
